

The INADA Chair Used by Leading Chiropractors

Dr. Shiozawa and Dr. Siddiqui, leading chiropractors in New York City, are using the INADA Chair to treat their patients.

Dr. Mary-Anne Shiozawa

Dr. Shiozawa is a board-certified chiropractor and co-owner of Esprit Chiropractic Wellness Center in New York City, which she founded with her partner, Dr. Aatif Siddiqui. With an emphasis on total body wellness through maintaining a healthy spine, Esprit Chiropractic's clients include a broad spectrum of New Yorkers, from CEOs and business owners to film stars and Broadway performers. Dr. Shiozawa was awarded an honorary recognition from the New York Chiropractic Council for giving voluntary chiropractic services to the NYPD and FDNY at Ground Zero. Dr. Shiozawa gives health lectures at industry conferences speaking about the importance of maintaining health and wellness.

Dr. Aatif Siddiqui

Dr. Siddiqui is a board-certified chiropractor in the state of New York and New Jersey and co-owner of Esprit Chiropractic Wellness Center with his partner, Dr. Mary-Anne Shiozawa. Dr. Siddiqui works extensively with the Japanese community which has enhanced his reputation and visibility. He was given an honorary recognition from the New York Chiropractic Council for his work as a chiropractic volunteer for the NYPD and FDNY at Ground Zero. Dr. Siddiqui has used many different massage chairs from various companies in his chiropractic career, and he has researched the benefits of using the INADA Chair. He has been remarkably pleased with the INADA Massage Chair and recommends it to anyone who is looking for the most efficient and state-of-the-art technology.

The INADA Chair Used by Leading Chiropractors

Dr. Shiozawa:

•"Instead of having the typical waiting room chair, we have the INADA chair. The chair is doing great work by relaxing the patients. The patients love it because the chair is comfortable, very easy to use, stimulating and invigorating.

The INADA Chair hones into the areas where you are very stressed out with all the different program choices you have. The deep acupressure program is efficient and very effective because I would do that if I were actually giving a trigger point massage to a patient.

The INADA Chair is great and very useful for me because patients can get great 10-minute sessions to relax and get their muscles worked on. Usually lots of people like to sit in the INADA Chair before the session because they come in right off the street, probably straight from their office and are more than likely stressed out. The INADA Chair relaxes them and I'm very pleased with it, and I really love it. •"
